PERFECTSHOTS

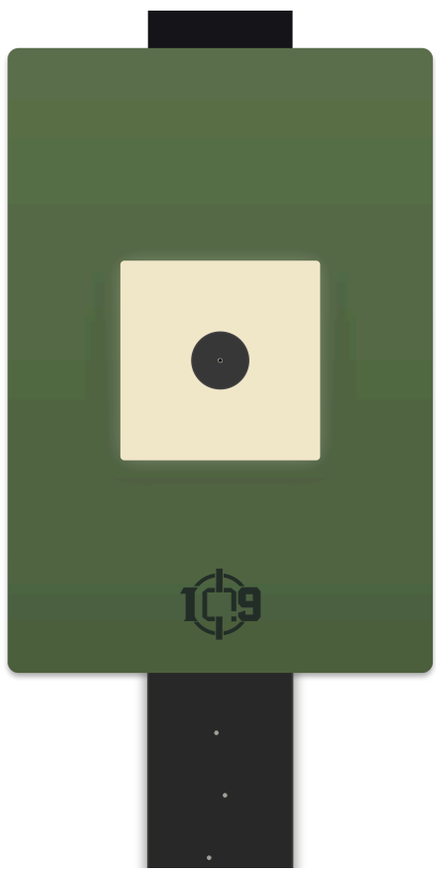

PRECISION ELECTRONIC SCORING TARGETS

10 M · 25 M · 50 M

EVERY SHOT.
EVERY HEARTBEAT.
EVERY TENTH.

10 m, 25 m and 50 m electronic targets, designed and built in Kochi. Acoustic scoring, AI analysis and a full training system in every machine, and now PerfectForm: the shooter's own body on the same timeline as the score.

MADE IN KOCHI

THREE MACHINES. ONE PLATFORM.

Every machine shares the same scoring engine, the same app and the same free software upgrades for life. You choose how much of the training and competition system you need.

	OTHER BRANDS TYPICAL	V2 SCORE SCORING	V2 TRAINING	V2 PRO COMPETITION

PerfectCoach AI	–	SOON	SOON	SOON

V2 SCORE → V2 → V2 PRO Upgrade any time. The controller board is swapped; the target, your athletes and every session stay. Prices on the enclosed price sheet.

THE REASON A SHOOTER IMPROVES BETWEEN MATCHES.

Fifteen modes built into V2 and V2 Pro. Not drills invented for a brochure: they run on real competition data from 10 m, 25 m and 50 m events between 2023 and 2026, so your shooter is measured against the field rather than against a formula.

PERFECTSHOTS ACADEMY · TWELVE GAME MODES

OPPONENT
SHADOW MATCH
Race shot by shot against real ISSF athletes.

GOLD
SHADOW FINALS
Race ISSF gold medallists on a finals timer.

YOURSELF
SHADOW ME
Race your own best previous score, shot by shot.

CHASE
CATCH ME IF YOU CAN
Score recovery training under pressure.

WORLDWIDE
PS MULTIPLAYER 60
A live 60-shot match against shooters anywhere.

WORLDWIDE
PS MULTIPLAYER FINALS
A live final against shooters anywhere in the world.

AWARENESS
PS CALL
Call the shot after you fire, then see whether you were right.

PRECISION
PS SPREAD
Tighten the group. Score is ignored.

FORMAT
CHAMPIONSHIP SIM
Rank against real Olympic and World Cup fields.

PASS / FAIL
PS CHALLENGER
Tiered levels with binary criteria.

ELIMINATION
PS FINALS
Single-shot knockout, round by round.

REALITY
RANK ME
Rank against real athletes in your own tier.

CONDITIONING · THREE TRAINING MODES

DISCIPLINE
FOLLOW THROUGH
A blank delay kills the flinch.

TIMING
RHYTHM TRAINING
A repeatable shot interval under a set cadence.

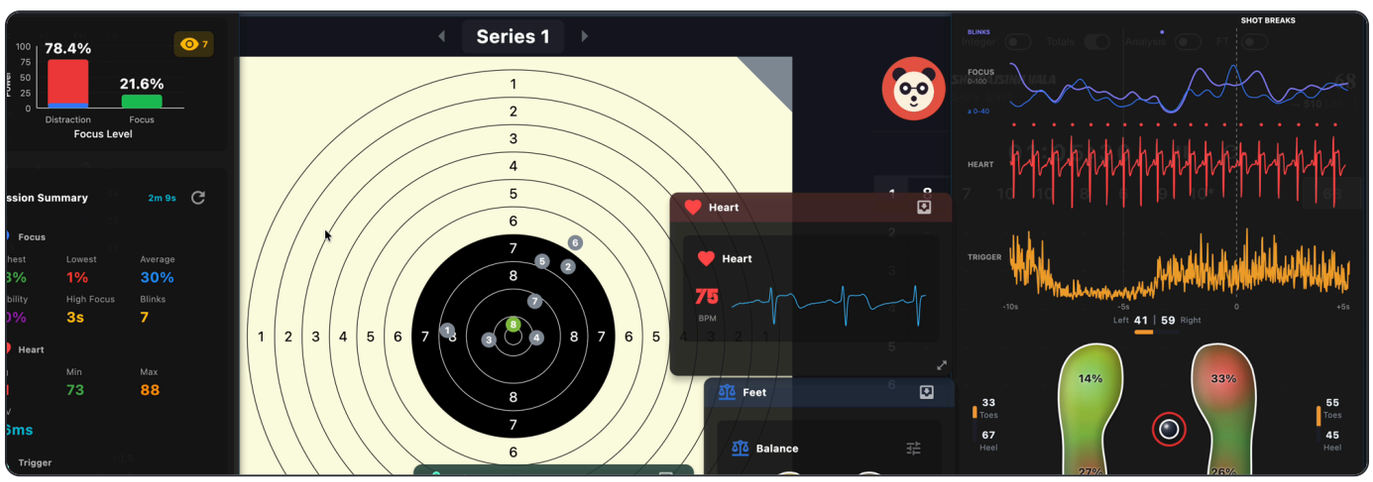

FATIGUE
STAMINA TRAINING
Focused, progressive pyramid holds.

V2 AND V2 PRO
LIVE ARENA
Enter a past international final and shoot it live against the actual field, shot for shot, on the real scores they posted. The pressure of a final, on your own range.

PERFECTFORM

WHAT THE TARGET CANNOT SEE.

Add-on sensors that record the shooter's body on the same timeline as the score: focus, heartbeat, the trigger finger and both feet, for every shot. They work with V2 Score, V2 and V2 Pro.

First trial, 1 October 2026: target, focus, heart, trigger and both feet, live on one screen.

PERFECTMIND

HEADBAND · EEG · ECG · EMG

- **Focus and blinks**: how steady the focus was, and when the last blink came before the break.
- **Heartbeat**: did the shot break on the beat or between beats.
- **Trigger finger**: the muscle command that released the shot.
- **Ten seconds before, five after**, kept for every shot.

PERFECTBALANCE

BALANCE PLATFORM · TOE AND HEEL OF EACH FOOT

- **Live foot map**: weight under each toe and heel, left against right.
- **Balance Point**: where the weight sat when the shot broke.
- **Balance group**: every shot's Balance Point across a match, like a group on a target.
- **S** (2 plates, standing) or **KS** (3 plates, standing and kneeling).

Shown, never coached. Every number compares the shooter with their own best, never with another shooter. Buy them together as the PerfectForm Kit, or with a target as a combo (see the price sheet).

COMING SOON

MORE ADD-ONS

PERFECTMOTION

The weapon itself: hold path and movement.

PERFECTVISION

What the shooter's eye is doing.

PERFECTWIND

Wind on the range, on the shot's timeline.

BEYOND 10 METRES.
NO CABLES. NO MAINS.

The same scoring engine and the same app on the 25 m and 50 m range. Every 25 m and 50 m target is wireless and runs on its own battery, so the match goes on when the power goes off.

25 M

Pistol. The same scoring, timers and announcements as every PerfectShots lane.

50 M

Rifle and free pistol, on the same Range Controller, TV and results as your 10 m lanes.

0 CABLES

Wireless to the firing line and powered by its own battery. A power cut never stops a relay.

50 M
RIFLE

50 m rifle: prone and 3 positions.

SHIPS IN 10 DAYS

25 M
PISTOL

The 25 m pistol events.

30–45 DAYS

50 M
RIFLE / FREE PISTOL

50 m rifle and 50 m free pistol on one target.

30–45 DAYS

25 / 50
HYBRID

25 m and 50 m on one machine.

30–45 DAYS

WIRELESS

No cable down the range. Targets join the range network on their own.

BATTERY POWERED

Runs without mains power, so an outage never stops a relay.

ONE APP

10 m, 25 m and 50 m lanes on the same Range Controller, TV and results.

25 M PISTOL · ACCESSORY

25 M DRY

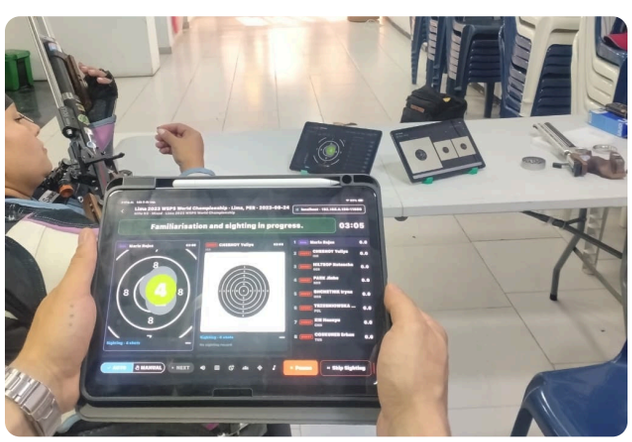

A cadence light for dry training: the same commands, timers and announcements as a real 25 m target, for all four 25 m events.

Delivery times from receipt of payment. 10 m targets ship the same day. Prices on the enclosed price sheet.

PARA SHOOTING IS SHOOTING.

One target, one app, every athlete in the club. The para squad trains on the same machine, with the same scoring and the same analysis, as everyone else.

Racing the WSPS World Championship final in PS Academy. Venue: (to come).

- **Race the real Paralympic field.** Historical WSPS results, shot for shot, in qualification and the 8-finalist final.
- **Every 10 m class.** Para Pistol, P1, P2, P5, Para Rifle and R1 to R4.
- **Same scoring, same analysis, same PerfectForm.** No separate system for the para squad.
- **Built for every hand.** Hands-free switch from sighters to match by Bluetooth clicker or voice; shots called by voice in PS Call.
- **For para academies and associations.** Able-bodied and para athletes trained, ranked and reported side by side.

BOUGHT ONCE. GROWS EVERY MONTH.

AI ANALYSIS

Per shot and across sessions, measured against 3,067,947 real competition shots.

GO LIVE

Share a code; a coach or parent watches from anywhere and sends a note the athlete hears.

PS MULTIPLAYER

A live 60-shot match or final against shooters anywhere in the world.

ANDROID TV APP

The whole app on an Android TV box, at the range or at home.

MATCH VIDEO

Every shot of a finished match, replayed on the target, ready to share.

UPGRADES FOR LIFE

Software and firmware updates never cost extra.

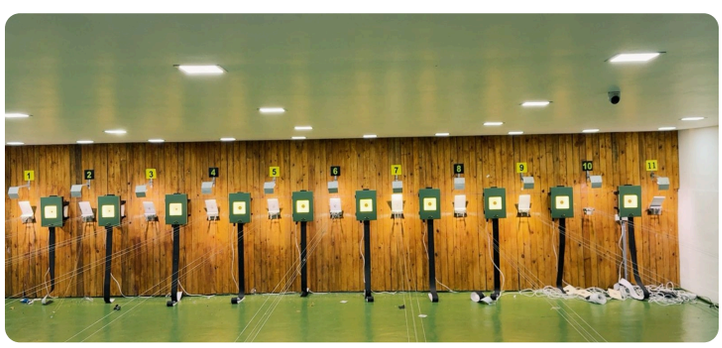

FREE IN THE SOFTWARE

PELLET TESTER

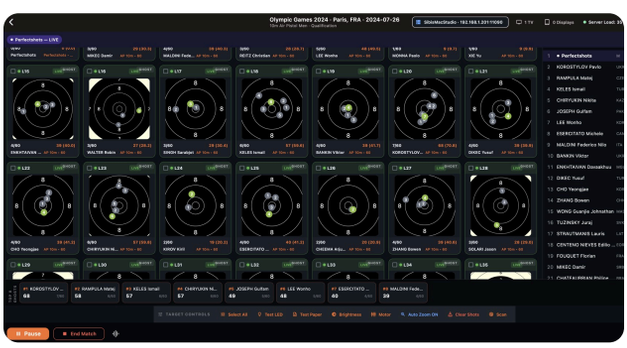

Find the pellet lot your barrel groups best with, **before** you buy tins in bulk.

- **On the target itself**: a group per lot, no paper and no counting through a scope.
- **Measured**: mean radius and extreme spread for every lot, side by side.
- **Honest**: it says when two lots are too close to call, instead of picking a winner.
- **Kept** per gun and per lot, and backed up to your account.

V2 PRO · RUNNING A RANGE

The Pondicherry range: the 6th Pondicherry Open and the Champion of Champions final, scored on PerfectShots.

Range Controller: every lane on one screen; TV leaderboards and live ISSF finals for the hall.

0.0 / -0.1

NEVER GENEROUS

Others publish ±0.1 and can report a tenth the shooter never fired. Ours reads exact or a tenth low. Accuracy tested before launch by **P T Ragunath**, Asian Games 2006 team bronze medallist, at the Pondicherry range, and an accuracy test template ships with every machine.

PERFECTSHOTS

TALK TO US.
WE ANSWER.

Call or message us for prices, a quote for your range, or a live look at the app on your phone. We install every range ourselves.
